## 1. WELCOME AND INTRODUCTION

I am pleased to welcome you again at Rally Estonia. Exactly ten years ago, in 2014, Rally Estonia as the newcomer to the series was chosen the best rally of the year in the ERC series. It was a great tribute to our organizers for their professionalism and dedication. The ability of our people to organize a world-class sports event is highly valued and this year's Rally Estonia is yet another confirmation of this.

Rally Estonia is one of those extraordinary competitions that brings together both local and international audiences and raises the profile of Estonia in the sports world.

In addition to sports, Rally Estonia also has a regional and economic impact. The event entails significant investments to South and South-East Estonia, promotes tourism and business activities and contributes to the development of local communities. This is an important step in achieving our country's goals in sports, regional politics and economy.

I would like to thank the organizing team of Rally Estonia and all sponsors who have made this great sports event possible again. Your unwavering commitment and passion for the sport is outstanding and has been noticed here and beyond.

I also invite all of you back to South Estonia in 2025, when Rally Estonia will again be on the WRC calendar. It will be an equally anticipated event that will offer powerful motorsport experience for both rally fans and the entire Estonian people.

Get ready to witness the speed, passion and competition and be part of the excitement of Rally Estonia!

### DEAR RALLY FANS,

It is the year 2024, which once again marks a season in the history of Rally Estonia when there is no WRC stage on the Estonian roads. On the one hand, this fact could make us a little sad, but in fact we are very optimistic and anxious, as the European Championship stage (ERC) will bring an exceptionally strong lineup of drivers to the track in Rally 2 class, where more than 30 rally pairs are expected. Also, we can see a lot of talented drivers in other competition classes. I believe that Estonians are highly competitive in absolutely all classes.

The WRC is currently living in a revolutionary period, as changes are deemed necessary both in terms of car construction and general popularization of rally sports. The goal is to provide the teams and drivers with the most reliable cars possible, so that the season's rankings would include a minimum of so-called random points due to the interruption of the winning favourites. The audience wants to know and see that the winner is a "real winner", not a champion drawn on paper.

Rally sport is popular in Estonia and it is undoubtedly the greatest achievement of today's organizers of Rally Estonia, who have managed to raise the level each year. The rally organizers from other countries often follow the example of what we do. This year's ERC rally will be quite a welcome gap year before the 2025 and subsequent WRC rallies. The organizers have plans to do a number of things better again and the little take-up time really hits the spot.

Have a great rally experience!

## DEAR RALLY FANS FROM ALL OVER THE WORLD,

This year Tartu holds the title of European Capital of Culture. Sports and “healthy mind in a healthy body” are also part of a mighty cultural capital. Tartu is well known in the world as the centre of excellence for Olympic heroes, marathons and Estonian sports and sports sciences. Tartu is also known as the city of rally, which brings us thousands of rally fans, high-level drivers as well as top-class organization. Not to mention a good emotion.

The thing about Tartu and the people of Tartu is that if something is to be done, it should be done very properly - to have a reason to visit Tartu again and take part in the city’s centuries-old milieu, good Tartu spirit and great emotions. This is the real part of Tartu. We are happy to share it with you.

Welcome to the European capital of culture!

## WELCOME TO ERC DELFI RALLY ESTONIA!

During recent years the ERC series has developed into a very attractive and competitive sports event. Together with FIA, WRC promoter, Estonian government, our good sponsors and partners and the professional organizing team, we are very pleased to organize the round of the European Rally Championship in Estonia after a seven-year break from the ERC calendar. Our mission is to offer high-level organization, unforgettable experience and extraordinary emotions to the teams, crews and spectators based on fourteen years of rally experience.

We have selected the best gravel stages in South Estonia and are bringing back the traditional city stage in Elva, which is the home town of world champion Martin Järveoja as well as Kuldar Sikk, who has attended more than a hundred WRC rounds, and other talented rally drivers.

I would recommend to wait and watch the PowerStage that ends the rally with great excitement, both on the spot and via live broadcast. I dare to say that it is the most difficult in the history of Rally Estonia, including the best parts of Kambja and Neeruti stages.

The rally headquarters, media centre and service park are located at Tehvandi Sports Centre in Otepää. The start and finish of the rally will be given on the podium in Tartu Town Hall Square. The entrance to the start and finish podium and the service park is free for all spectators.

Similarly to last year, we also expect the drivers of the Estonian car rally championship and local cup series to attend the rally weekend.

Glad to add that we also expect the drivers of the Estonian and Latvian rally championship and local cup series to attend the rally weekend. See you at the rally!

Information in Rally Guide can be changed and added, any updates will be published at [www.rallyestonia.com](http://www.rallyestonia.com).

## 1.1 ENVIRONMENTAL POLICY

The organiser of ERC Rally Estonia 2024 promotes environmental awareness and makes every effort possible to ensure that the event causes as little ecological stress for environment as possible. As an organiser of a round of WRC, we achieved the 3-Star Level of the FIA Environmental Accreditation Programme in 2022 and we will give our maximum effort to maintain this level and improve.

ERC Rally Estonia takes responsibility about climate change and carbon footprint in our field, calculates carbon footprint and continues offsetting emissions via compensation – planting trees. Our goal is to reduce the environmental impact by monitoring performance indicators and taking remedies in the main impact areas. Partners will be involved to fulfilling our vision through procurement policy, communication and training. Relevant stakeholders have been identified and we cooperate to achieve the goal.

Regarding the FIA Environmental Programme, evaluating and reducing the environmental impact of motorsport is playing an integral role. Based on the FIA's recommendations the event organisation has improved the training of marshals, formal documentation and monitoring of the environmental performance. We have improved the monitoring of the event carbon footprint and waste management system and want to be a good example in terms of environmental issues nationally as well as internationally.

ERC Rally Estonia considers important to participate in discussions of sustainable development together with scientists, other organisations and public. For that purpose we have joined the Rohetiiger (Green Tiger) programme as a founding member. Rohetiiger is a cooperation platform with an objective to become a representative organisation in sustainable development discussions, to lay down the foundation to balanced economy and to perform a green leap in Estonian society.

# Rohetiiger

Key elements for ERC Rally Estonia 2024 will be to put effort into increasing the environmental awareness not only in the members of organisation and stakeholders but also among spectators, partners and teams. Environmental issues, such as selecting eco-friendly products and local services and reducing emissions are taken into consideration and uniquely identified with each partner company.

In order to promote environmental sustainability and enhance responsibility we aim to implement the following activities and ask our partners to follow them as well:

- Promote environmental awareness in all our channels and communication.
- Comply with all relevant laws and regulations, including environmental requirements and FIA Environmental Accreditation Programme.
- Require environmental responsibility from stakeholders, cooperative partners and suppliers
- Pay close attention to cooperating with all landowners, residents and road owners.
- Set environmental objectives and targets, and measure them.
- Concentrate on energy efficient and sustainable solutions, for example using renewable energy sources when possible.
- Reduce the number of documents printed on paper, preferring digital formats and printing only the documents required by the FIA.
- Reduce carbon emissions - use hybrid or electric cars as most of the organisational vehicles, hold online meetings.
- Search for ways to optimise transportations and logistics to decrease emissions as much as possible: carpooling, public transportation.
- Make a thorough plan for emergency situations and implement it actively.

## 1.2 HISTORY OF RALLY ESTONIA

The idea to organise a new rally was born over 12 years ago when Silver Kütt, a co-driver with the experience of participating in seven WRC rallies, presented his idea to his good friend, a former WRC driver Urmo Aava. After sharing the idea with a “marketing mastermind” Tarmo Hõbe, who named the new rally “Rally Estonia”, first steps were taken.

The idea that first seemed unbelievable back in 2009, has grown year by year and now Rally Estonia has become a WRC event. The first Rally Estonia took place in 2010 and the first ever winner of the rally was the local hero Markko Märtin who won five World Championship rallies during his WRC career. The first two-time champion of the event was Mads Østberg, the winner of Portugal WRC Rally 2012, who was fastest at Rally Estonia in the years 2011 and 2012.

The high level of competition, having Märtin, Østberg and Latvala family participating among others, raised the bar high for the organisers to keep. From 2014 until 2016 Rally Estonia was part of the European Rally Championship (ERC) and in 2014 it was voted as the best ERC rally of the year.

In 2019, Rally Estonia hosted the first ever WRC Promotional rally. In June 2020 Tarmo Hõbe received a call from WRC Promoter CEO Oliver Ciesla who offered Rally Estonia to organise the first ever World Championship event in Estonia.

Estonia became the 33rd country in WRC history to host a WRC event. After a half year break in WRC calendar due to the COVID-19 virus, the first ever official WRC Rally Estonia and the 600th event in the history of WRC was run from 4-6 September.

The first winners of WRC Rally Estonia were the local heroes and 2019 World Champions Ott Tänak – Martin Järveoja.

On 11th of January 2021 Rally Estonia organising team won the ASAHI KASEI TEAM SPIRIT AWARD and two days later Rally Estonia organisers and the WRC Promoter announced that Rally Estonia will stay in WRC calendar for the years 2021 and 2022. In 2020 Rally Estonia celebrated the 10th anniversary and in 2021 Estonian auto- and motorsport celebrate 100 years.

Besides local stars Rally Estonia has welcomed many world top rally drivers over the years, such as WRC drivers Sébastien Ogier, Elfyn Evans, Thierry Neuville, Esapekka Lappi, Jari-Matti Latvala, Teemu Suninen, Craig Breen, Hayden Paddon, Yazeed Al-Rajhi, Martin Prokop, Toni Gardemeister and ERC Champions Alexey Lukyanuk, Kajetan Kajetanowicz and Oliver Solberg.

The only crew who has won Rally Estonia three times in a row are the local heroes and 2019 World Rally Champions Ott Tänak and Martin Järveoja.

In 2021 Kalle Rovanperä and his co-driver Jonne Halttunen took the first win of their WRC career at Rally Estonia. With that achievement Rovanperä made WRC history becoming the youngest WRC Rally winner of all time at the age of 20 years and 289 days.

In 2022 Rovanperä / Halttunen repeated the result they achieved a year before and became double winners of WRC Rally Estonia. 22-year-old Robert Virves set a new record with most Special Stage wins in the Junior WRC Category at a single rally event. The Estonian won 17 stages – one more than the previous record holder World Champion Sébastien Ogier.

Rally Estonia 2023 was supposed to be a Battle of Champions - Rovanperä vs Tänak, but when the local heroes Tänak / Järveoja suffered a pre-event engine failure which resulted in a 5-minute time penalty, it was Rovanperä / Halttunen who completed a hat-trick of wins in Estonia. For the runner-up Hyundai Motorsport it was the third double podium in four years. When in overall classification Rovanperä took the third win in a row, then in Andreas Mikkelsen pulled a hat-trick of his own, remaining unbeaten for the third time in a row in WRC2.
